# ► 2 About Us

# Company profile

Nova Spark

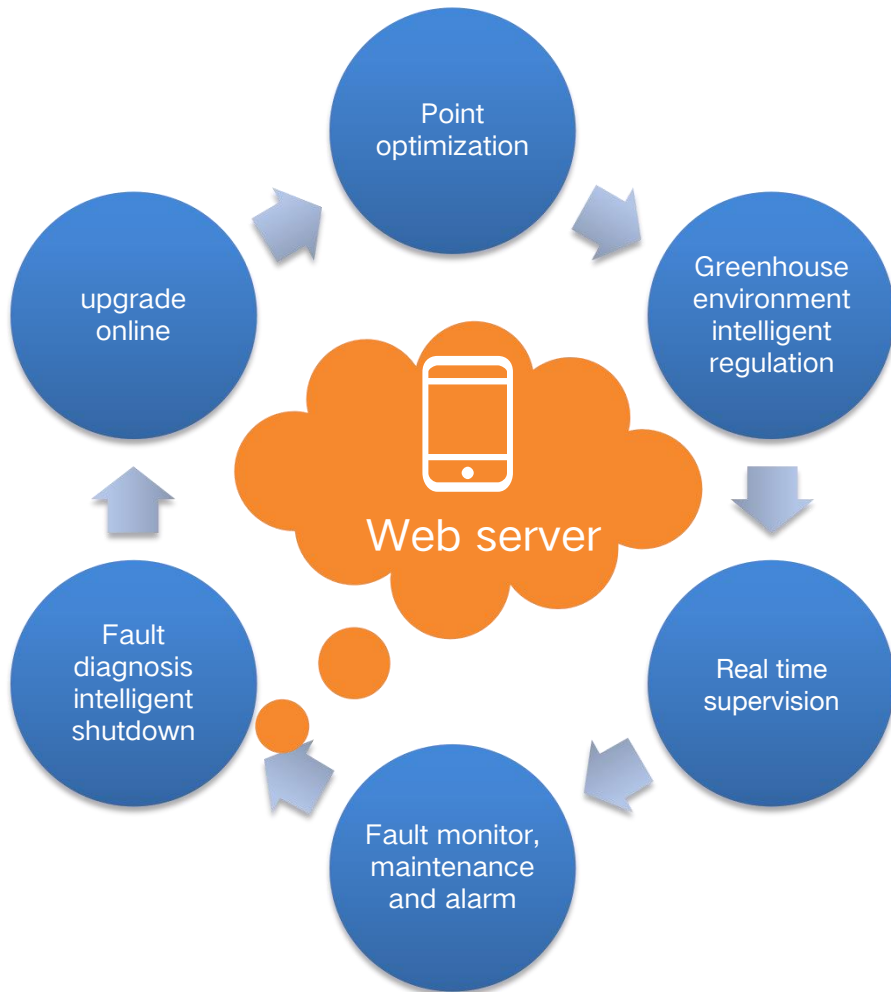

Founded in 2017, we possess independent core technology and strong sustainable R&D capabilities. We offer a comprehensive range of vending machines and provide ODM and OEM services tailored to meet diverse customer needs, delivering complete professional software and hardware solutions.

Our machines are widely utilized in schools, airports, stations, and offices, offering a variety of products, including snacks, beverages, stationery, books, toys, clothing, medical supplies, boxed meals, fresh flowers, and pizzas. They are equipped with flexible payment systems that accept cash, coins, cards, and mobile codes.

The Nova Spark brand has achieved significant popularity, with strong sales in China and over 40 countries worldwide, thanks to its excellent design, reliable performance, and superior quality. Nova Spark has earned the trust and respect of our customers.

Among our competitive products, the pizza vending machine stands out. We have applied for key patents and certifications, ensuring its innovation and reliability.
